

QUALITY & FOOD SAFETY POLICY

**“TOTAL CUSTOMER SATISFACTION AND PRODUCT SAFETY
ARE THE KEYS TO OUR SUCCESS”**

This is the foundation of our culture and commitment to our customer & legal compliance.

All employees of the company share in the responsibility for the proper quality of its products and services from the top down.

The company has established an IMS, in accordance with the requirements of latest ISO 9001 & FSSC 22000 and committed on continuous compliance to applicable requirements, which will pave to continual improve its effectiveness.

The company provides a framework for establishing and reviewing quality & food safety objectives which take its roots in three basic principles:

- To improve production efficiency
- To deliver on time
- To produce quality & safe product

So that conformance of the goods and services offered to the customer and consumers are assured of food safety.

In order to achieve the intended outcomes of the quality and food safety management system, we will communicate quality and food safety aspects to external providers that have an impact on company's quality and food safety management system. In addition, we will continue to build Quality and Food safety capability through programs that develop technical skills and hygiene awareness.

All employees of the company shall by this directive be informed of, educated on, be made to understand and henceforth diligently implement this policy.

Komark commits to be a World-Class Total Solution Provider for premium labels and flexible packaging manufacturers in Southeast Asia.
